SUSTAINABLE DEVELOPMENT GOALS

1 NO POVERTY

2 ZERO HUNGER

3 GOOD HEALTH AND WELL-BEING

4 QUALITY EDUCATION

5 GENDER EQUALITY

6 CLEAN WATER AND SANITATION

7 AFFORDABLE AND CLEAN ENERGY

8 DECENT WORK AND ECONOMIC GROWTH

9 INDUSTRY, INNOVATION AND INFRASTRUCTURE

10 REDUCED INEQUALITIES

11 SUSTAINABLE CITIES AND COMMUNITIES

12 RESPONSIBLE CONSUMPTION AND PRODUCTION

13 CLIMATE ACTION

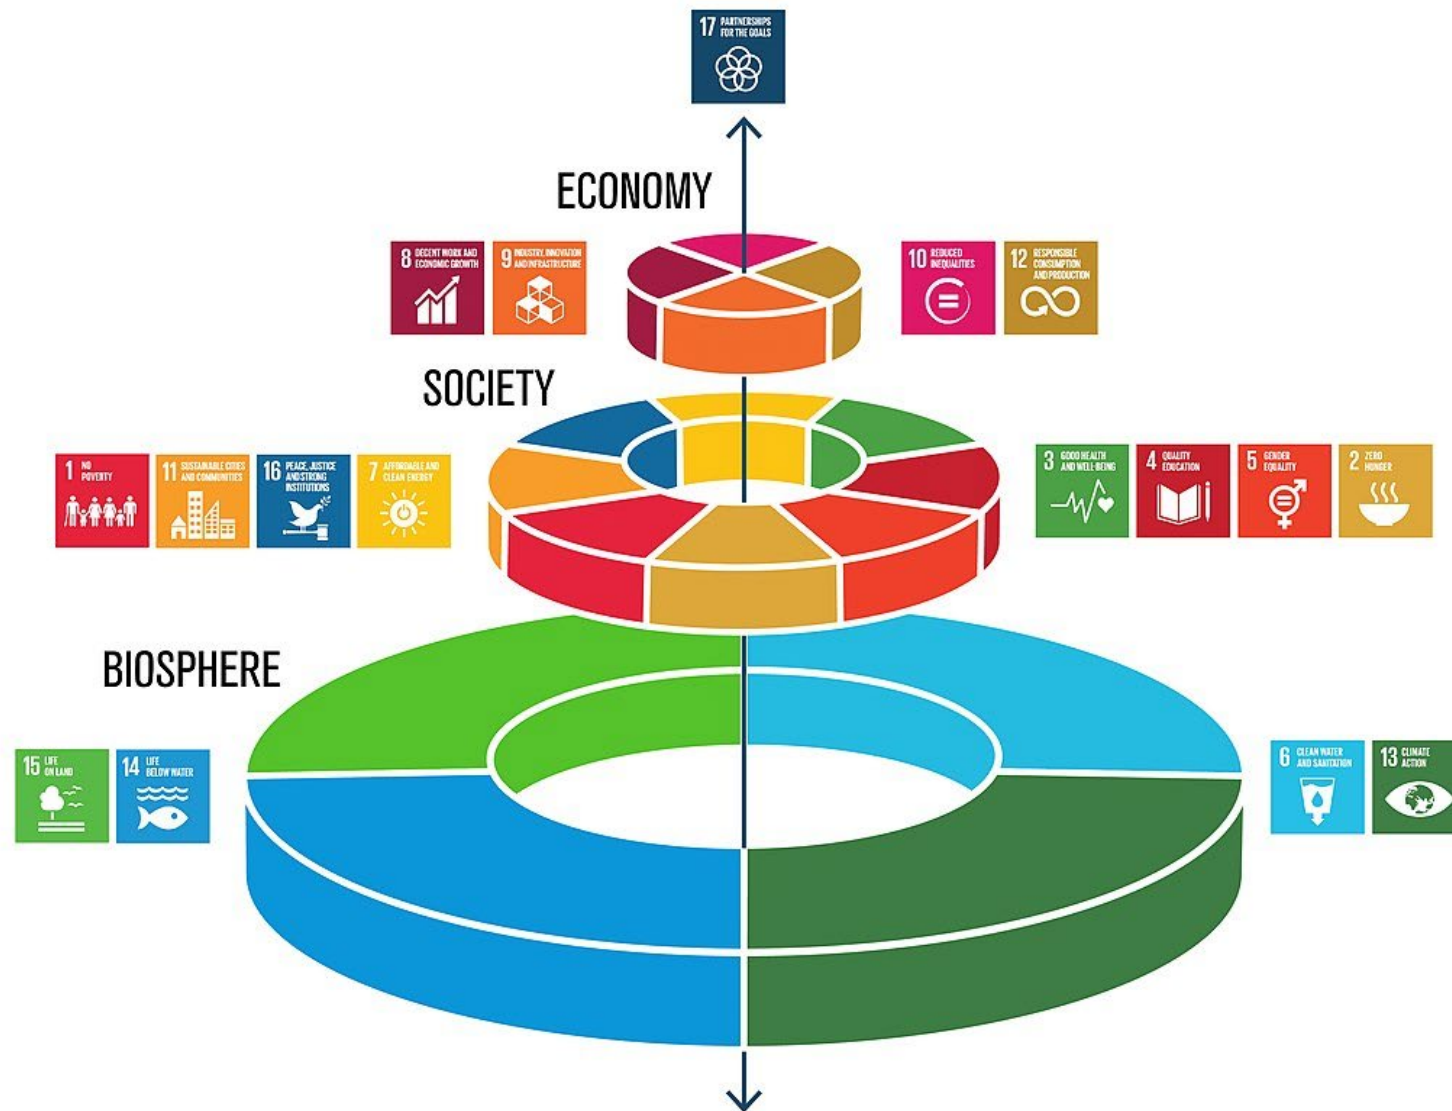

14 LIFE BELOW WATER

15 LIFE ON LAND

16 PEACE, JUSTICE AND STRONG INSTITUTIONS

17 PARTNERSHIPS FOR THE GOALS

Sustainability in EEBIII – TIME LINE

Working group

Questionnaire

Eco School Flag

Sustainability and Active citizenship

Projects of 2023

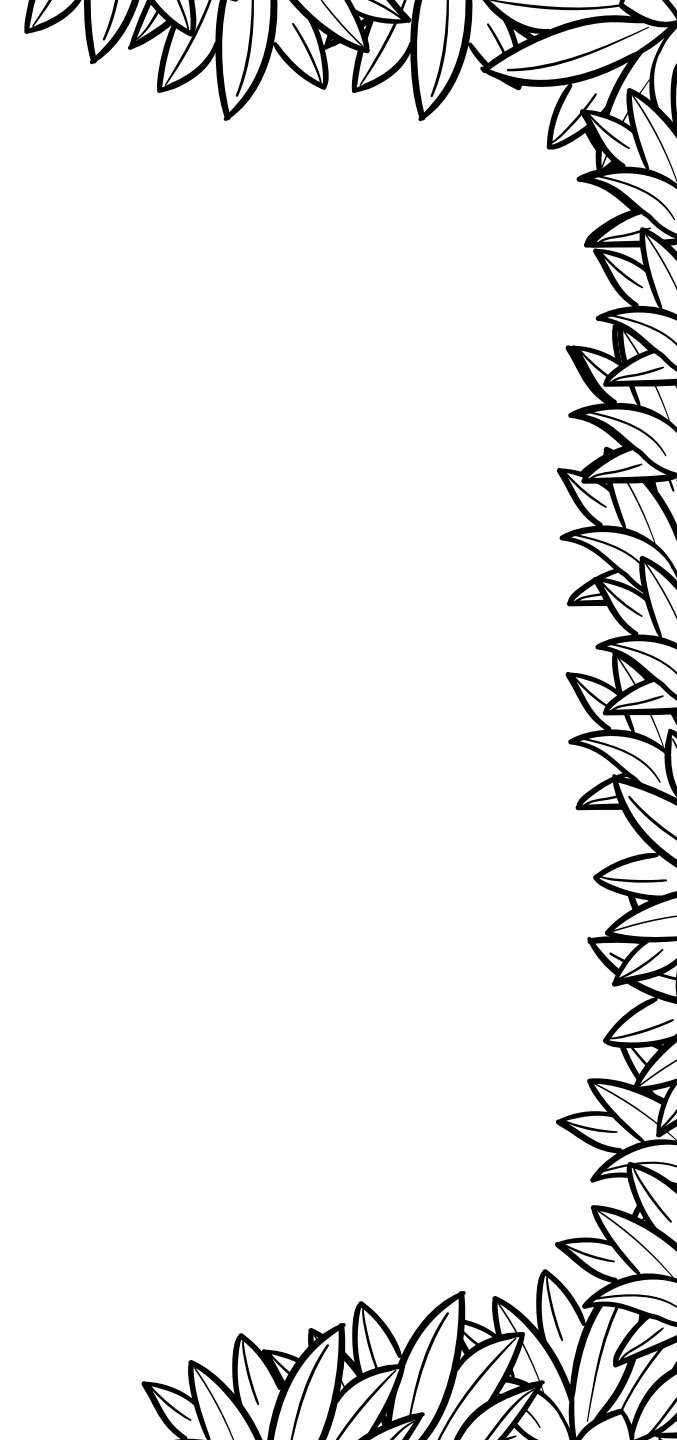

EEB3 GREEN

Projets écologiques EEB3

Contenu

- Projet Bokashi
- Atelier hôtel à insectes
- Clothes swap
- Affaires de sport
- Green talks
- Potager
- [Poubelles PMC](#)
- Communications
- [Eco flag](#)
- [Sustainability and Active citizenship](#)
- [Solar panels program](#)

Projet Bokashi

Journées de compostage à la
cantine

Les élèves jettent leurs restes de
nourriture dans les bacs à
compostage

Système de compostage bokashi
sans odeurs

Utilisation du composte dans le
jardin potager de l'école

Clothes swap

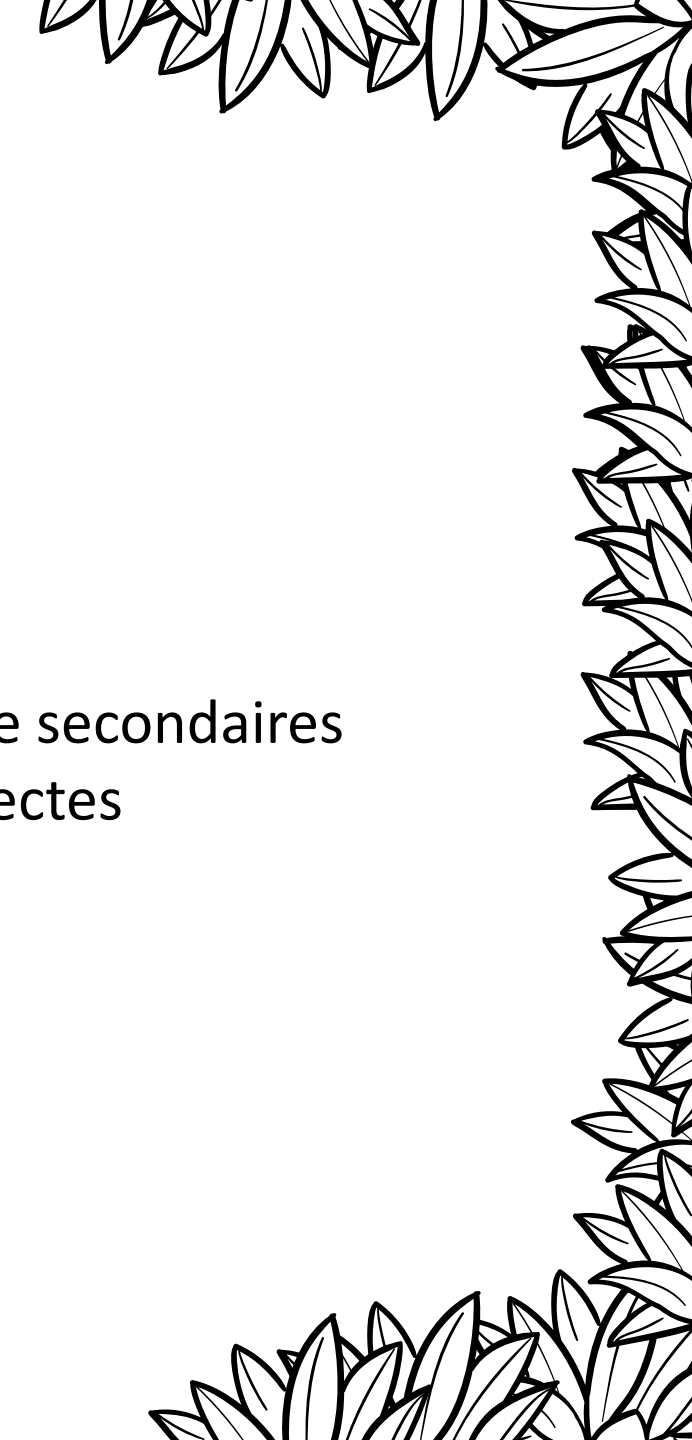

- Organisé deux fois l'année dernière
- Collection les vêtements non-utilisés des élèves
- Arrangement des habits
- Redistribution aux élèves pendant une pause de midi

INSECT HOTEL
WORKSHOP

Atelier hôtel à insectes

- Pendant la fête de l'école
- Atelier pour les 1ère - 4ème secondaires
- Construction d'hotels à insectes

THANK YOU FOR YOUR
PARTICIPATION TODAY 

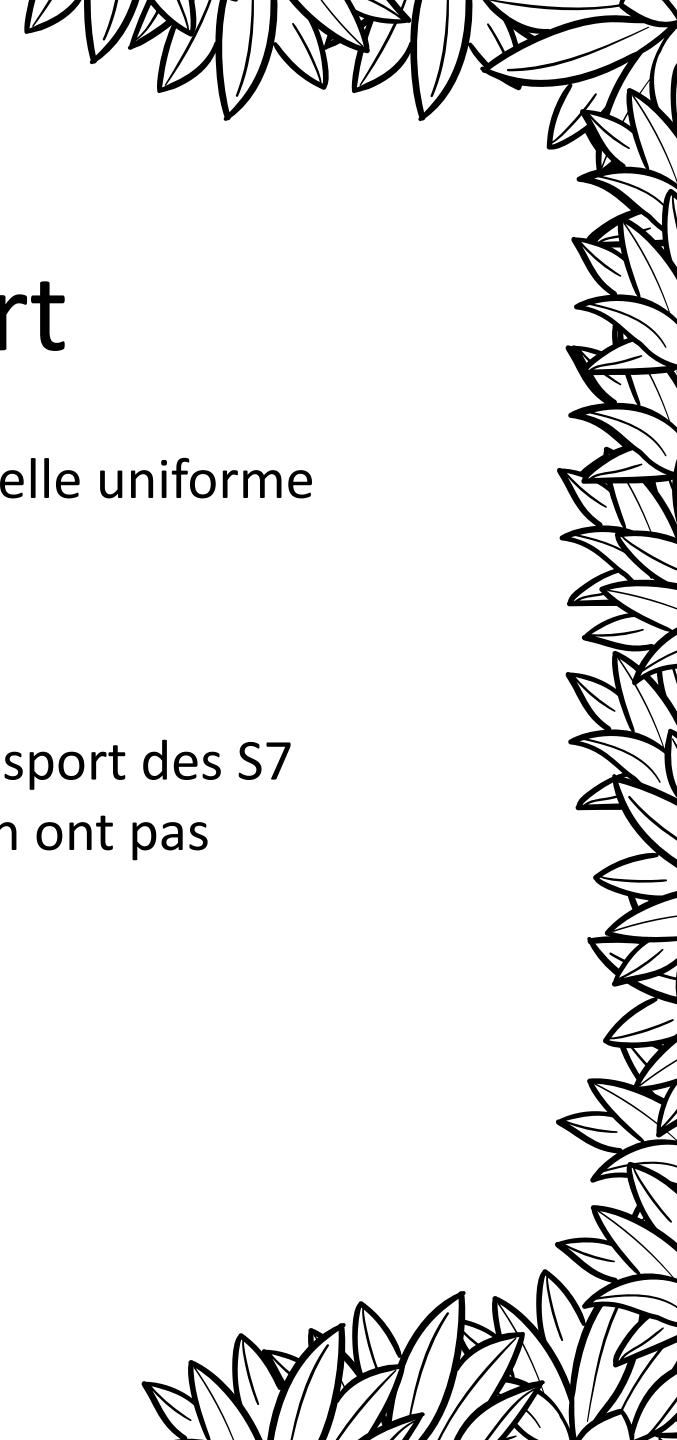

We will put the rest of the
clothes in the blue box
near the gym

Feel free to take it
from there if you
need any! 🐼

Affaires de sport

- Il est inutile d'acheter une nouvelle uniforme chaque année:
 - ça coûte cher
 - ce n'est pas durable
- Récupération des uniformes de sport des S7
- Redistribution au élèves qui n'en ont pas

EEBGREEN PRESENTS

CLIMATE TALKS

WHAT IS **CLIMATE CHANGE** ABOUT? WHY SHOULD I **CARE**? WHAT IS IN IT FOR ME? WHAT CAN I **DO**?

climate expert **Michal Nekvasil** will open the climate labyrinth on **thursday 16.03** in the theatre in **P6 and P7!**

Green Talks

- Éduquer les élèves de l'état actuel de notre planète et de nos écosystèmes
- Pour ça nous avons décidé de commencer un projet de discours informatifs
- Nous avons invité un expert qui travaille dans le champ du climat

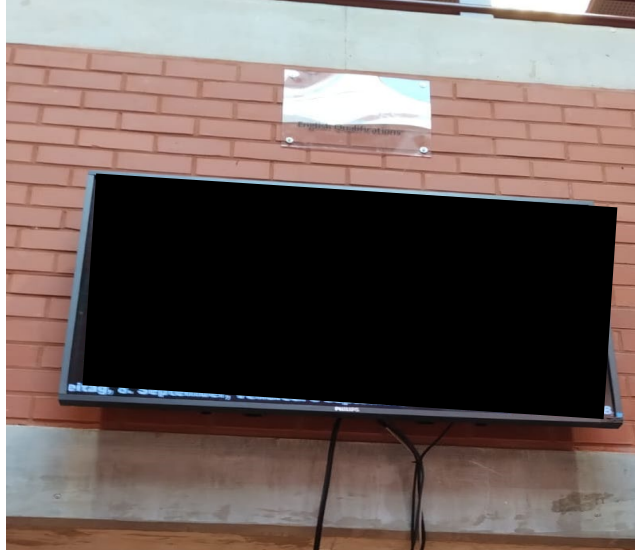

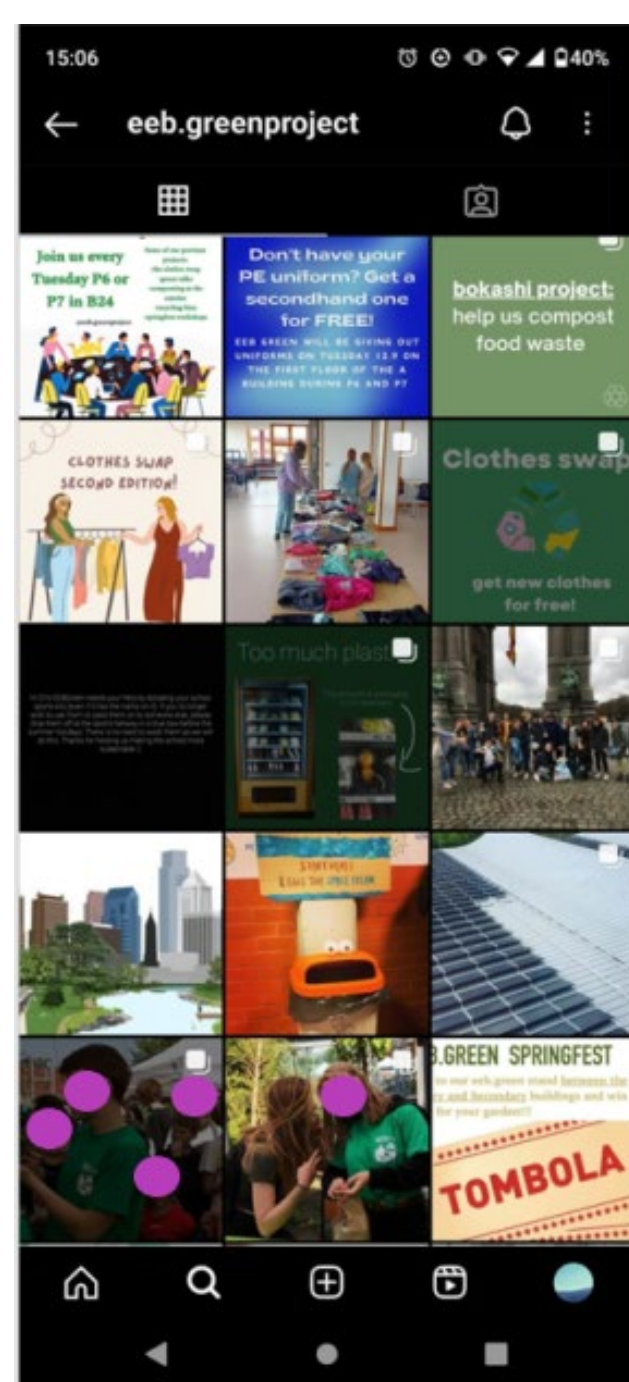

Potager

- En collaboration avec les élèves de primaire, et certaines classes de secondaire
- Jardin potager avec des fleurs, et épices
- Pour promouvoir la biodiversité et apprendre l'agriculture aux plus jeunes élèves en primaire
- Utilisation du composte (projet bokashi)

PMC

- Nous avons depuis des années des poubelles PMC (bleues) en extérieur et des poubelles à papier à l'intérieur des classes
- Nous avons ajoutés des poubelles PMC à l'intérieur des batiments cette année
- Nous allons ajouter des poubelles PMC à l'intérieur des classes aussi, et veillier à ce quelles soit utilizes

EEBGreen Project

Do you want to help to make our school greener?

**Join us every
Tuesday P6 or
P7 in B24**

Some of our previous projects:

- the clothes swap
- green talks
- composting at the cantine
- recycling bins
- springfest workshops

@eeb.greenproject

Communications

- Télévision de l'école
- Posters
- Instagram: eeb.greenproject

Idées de projets 2024/25

- Plus d'options végétariennes à la cantine
- Ramassage de déchets en dehors de l'école
- L'utilisation de papier recyclé
- Moins de déchets à la cafétaria
- Revente de desserts de la cantine
- Facilitation de la revente des livres d'école
- VéloMai – promouvoir l'utilisation du vélo comme moyen de transport

Idées de projets 24/25

- Travailler avec les autres projet de notre école afin de les faire plus durable
- Revendre les calculatrices des S7
- Encourager les technologies à la place de l'usage du papier et des photocopies
- Continuer les projets de l'année passée

In our school, every year events and bazaars are organized with 100% participation and support from students, in order to raise money for various purposes such as: SOS children's villages, schools of the developing world, groups of people affected by natural disasters. The contribution to money is small, but the awareness is great!

- Coordination for the well being as a concrete action
- EEBIII complies directly with the public health directives. It has organized the vaccination of the personnel, the monitoring of the cases for the covid 19, while recently carbon dioxide monitors have been placed in all the classes
- Also, with the continuous contribution of the atelier staff, the school space is always taken care of and new student relaxation spaces have been created
- A garden has also been created which is taken care of by the primary and secondary school students

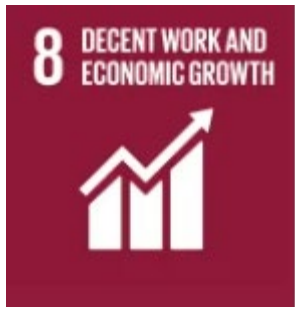

- EEBIII applies the European Schools Syllabus with highly motivated and qualified staff
- The infrastructure is rich and well maintained
- Students are our priority: ie. educational advisers are always available for our students, libraries up to date, events, support of students' actions are some of our primary concerns
- Gender and not only equality is just given

- EEB III is placed in Belgium, where the access to clean water is given.
- Our staff is doing a miraculous job: in our facilities circulate more than 3.500 people per day. Though, the place is more than clean and proper!

Our plan is to contribute as much as we can via solar panels but also via energy save

- All those topics are covered via syllabus and working experience projects
- EEB III Green has organized a campaign for composting and recycling in our school

- EEBIII responded immediately to the challenges of our days: there are constant demonstrations in support of the victims of the war, while there are events for peace with the help of both musicians and other teachers at our school.

- Our school aims for sustainability. For this reason, two years ago a working group for the sustainability of our school was established, which is coordinated by Mrs. Sciberras. Students, Parents, Teachers and the Administration in a very strong partnership.
- My self, is one of the Climate Change European Ambassadors. I work closely with the EEB green students' group while I stay highly informed about this issue.
- Last year, parents and school organized a seminar-working day concerning the environment.

Lets go further

- Students of the EEB III Green group created a very short video (in English and in French) that has to do with basic roles of recycling via blue bins
- We will send those videos to all teachers. Please show this video to the students and devote 5 minutes to explain them how to use the blue bins
- Blue bins will be placed in a number of our classes as well as on the walls of the inside corridors

Lets go further

- A group will be created in our share point. As a first step, you will find information on competitions, networks of teachers, seminars, ready material etc
- I will try to meet with course coordinators to see how small sustainability topics could be integrated into the already existing curriculum

Lets go further

- Sustainability related topics can be integrated into all the students' existing activities, such as including Spring fest and TEDx
- We can support projects that involve scientific research. Those projects are always in great interest to our students and that way our school can be represented in major competitions, symposiums and conferences

Lets go further

If you have any project that is going on or any idea that we can apply and has to do with sustainability, please contact me

Collaboration is the main stream for achieving Sustainability!
